

THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent of

Steven M. Bessette

Atty. Ref.:

4380-102

Patent No. 6,887,899

Application No. 09/604,158

Issued: May 3, 2005

For: METHOD FOR CONTROLLING HOUSE DUST MITES WITH

A COMPOSITION COMPRISING PHENYLETHYL

PROPIONATE

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

PROVISIONAL REQUEST FOR A CERTIFICATE OF CORRECTION

In response to a suggestion from the Examiner who allowed the above-captioned patent, the undersigned provisionally requests the Patent and Trademark Office to issue an official Certificate of Correction. In view of 37 C.F.R. § 1.322, it is believed that the below-identified errors were made by the Patent Office on the Coverpage of the above-cationed patent. In particular, the Japanese patent documents listed under "FOREIGN PATENT DOCUMENTS" contain citation information for English-language abstracts of Japanese patent documents. Such citation information was literally obtained from an International Search Report for a related counterpart PCT application (copy attached) and used on a Form PTO-1449 (copy attached) that was filed on March 16, 2001. During the pendency of the above-captioned patent application, the Patent Office never objected to the form of citation information for the cited Japanese

Steven M. Bessette Patent No. 6,887,899

abstracts that was used on the Form PTO-1449. As such, the patentee was never made aware that the citation information should have been revised, as now suggested by the Examiner after issuance. In fact, the Examiner has initialed the Form PTO-1449 prior to issuance of the above-captioned patent indicating that all cited items of information were considered by her. Indeed, such alleged errors in citation form could have been raised by the Patent Office during pendency. As such, it is believed that the alleged citation information errors on the coverpage of the above-captioned patent arose on the part of the Patent and Trademark Office. Therefore, no fee is believed necessary for securing issuance of a Certificate of Correction.

In view of the above comments, the following corrections are respectfully requested:
